NPDES Construction General Permit Tracking No. TNR111721
Southeastern Tennessee State Regional Correctional Facility (also known as
Bledsoe County Correctional Complex and Mitigation Site)
Pikeville, Bledsoe County, Tennessee

Dear Mr. Steck:

The Division of Water Pollution Control issued coverage under the General NPDES Permit for Storm Water Discharges Associated with Construction Activity (CGP) to State of Tennessee - Department of Corrections on February 2, 2010. That coverage was issued in response to the initial NOI submitted on December 23, 2009.

The amended NOI was submitted to include a new contractor as a co-permittee under the CGP. Enclosed is the updated Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc. Although we recorded information regarding the new contractor, we do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

We appreciate your attention to the general construction storm water permit and its requirements. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Mr. Steve Morse at (423) 634-5704 or by E-mail at steve.morse@tn.gov.

Sincerely:

Richard D. Urban, Ph. D.
Field Office Manager, Division of Water Pollution control
Chattanooga Environmental Field Office

Enclosure: Notice of Coverage

**NOTICE OF COVERAGE UNDER THE GENERAL NPDES
PERMIT FOR STORM WATER DISCHARGES ASSOCIATED
WITH CONSTRUCTION ACTIVITY (CGP)**

Tennessee Department of Environment and Conservation
Division of Water Pollution Control
401 Church Street, 6th Floor, L&C Annex
Nashville, Tennessee 37243-1534

Under authority of the Tennessee Water Quality Control Act of 1977 (T.C.A. 69-3-101 et seq.) and the delegation of authority from the United States Environmental Protection Agency under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 (33 U.S.C. 1251, et seq.):

Name of the Construction Project: Southeastern Tennessee State Regional Correctional Facility (also known as Bledsoe County Correctional Complex) (30 acres mitigation site)

Construction site Owner/Developer: State of Tennessee, Department of Correction

Contractor(s): Flintco, Inc.
Reasons Construction Co.

is authorized to discharge: storm water associated with construction activity

from site located at: 1045 Horsehead Road, Bledsoe County

to receiving waters named: Mill Creek

in accordance with effluent limitations, monitoring requirements and other conditions set forth herein.

Likely presence of threatened or endangered species in one mile radius: NO

Likely presence of threatened or endangered species downstream: YES

Additional pollution prevention requirements apply for discharges into waters which TDEC identifies as:

a) impaired by siltation: NO b) discharging into high quality waters: YES

Your coverage under the CGP shall become effective on February 2, 2010, and shall be terminated upon receipt of Notice of Termination, or the date of expiration of the CGP, May 30, 2010.

CONSTRUCTION ACTIVITY – STORM WATER DISCHARGES NOTICE OF INTENT (NOI) - INSTRUCTIONS

Purpose of this form A completed notice of intent (NOI) must be submitted to obtain coverage under the Tennessee General NPDES Permit for Discharges of Storm Water Associated with Construction Activity. **Requesting coverage under this permit means that an applicant has obtained and examined a copy of this permit, and thereby acknowledges applicant's claim of ability to be in compliance with permit terms and conditions.** This permit is required for storm water discharge(s) from construction activities including clearing, grading, filling and excavating (including borrow pits) of one or more acres of land. This form should be submitted at least 30 days prior to the commencement of land disturbing activities, or no later than 48 hours prior to when a new operator assumes operational control over site specifications or commences work at the site.

Permit fee (see table below) must accompany the NOI and is based on total acreage to be disturbed by an entire project, including any associated construction support activities (e.g. equipment staging yards, material storage areas, excavated material disposal areas, borrow or waste sites). There is no fee for sites less than 1 acre.

Acres Disturbed	Fee	Acres Disturbed	Fee	Acres Disturbed	Fee
= or > 500 acres	\$7,500	= or > 75 < 100 acres	\$2,000	= or > 20 < 30 acres	\$ 500
= or > 250 < 500 acres	\$5,000	= or > 50 < 75 acres	\$1,000	= or > 10 < 20 acres	\$ 400
= or > 150 < 250 acres	\$4,000	= or > 40 < 50 acres	\$ 750	= or > 5 < 10 acres	\$ 300
= or > 100 < 150 acres	\$3,000	= or > 30 < 40 acres	\$ 600	= or > 1 < 5 acres	\$ 250

Who must submit the NOI form? The NOI form must be signed by the "operator(s)" of the construction site. Operators will most likely include the developer of the site, and the primary contractor(s). "Operator" means any party associated with the construction project that meets either of the following two criteria: (1) the party has design or operational control over project specifications (including the ability to make modifications in specifications); or (2) the party has day-to-day operational control of those activities at a project site which are necessary to ensure compliance with the storm water pollution prevention plan (SWPPP) or other permit conditions (e.g., they are authorized to direct workers at the site to carry out activities identified in the storm water pollution prevention plan or comply with other permit conditions). If a contractor has not been identified at the time the NOI is submitted by the developer, the contractor(s) must sign an NOI for the project in order to obtain authorization under this permit. The contractor must include the NPDES permit number that is already assigned to the site, along with the name of the construction project and its location.

Notice of Coverage The division will review the NOI for completeness and accuracy and prepare a notice of coverage (NOC). Storm water discharge from the construction site is authorized as of the effective date of the NOC.

Complete the form Type or print clearly, using ink and not markers or pencil. Answer each item or enter "NA," for not applicable, if a particular item does not fit the circumstances or characteristics of your construction site or activity. If you need additional space, attach a separate piece of paper to the NOI form. **The NOI will be considered incomplete without a map and the SWPPP.**

Describe and locate the project Use the legal or official name of the construction site. If a construction site lacks street name or route number, give the most accurate geographic information available to describe the location (reference to adjacent highways, roads and structures, e.g. intersection of state highways 70 and 100). Latitude and longitude (expressed in decimal degrees) of the center of the site can be located on USGS quadrangle maps. The quadrangle maps can be obtained at 1-800-USA-MAPS, or at the Census Bureau world wide web site: <http://www.census.gov/cgi-bin/gazetteer>. Attach a copy of a portion of a 7.5 minute quad map, showing location of site, with boundaries at least one mile outside the site boundaries. Provide estimated starting date of clearing activities and completion date of the project, and an estimate of the number of acres of the site on which soil will be disturbed, including borrow areas, fill areas and stockpiles. For linear projects give location at each end of the construction area.

Give name of the receiving waters Trace the route of storm water runoff from the construction site and determine the name of the river(s), stream(s), creek(s), wetland(s), lake(s) or any other water course(s) into which the storm water runoff drains. Note that the receiving water course may or may not be located on the construction site. If the first water body receiving construction site runoff is unnamed ("unnamed tributary"), determine the name of the water body which the unnamed tributary enters.

ARAP permit may be required If your work will disturb or cause alterations of a stream or wetland, you must obtain an appropriate **Aquatic Resource Alteration Permit (ARAP)**. If you have a question about the ARAP program or permits, contact your local Environmental Field Office (EFO).

Submitting the form and obtaining more information Note that this form must be signed by the company President, Vice-President, or a ranking elected official in the case of a municipality, for details see permit subpart 2.5. For more information, contact your local EFO at the toll-free number 1-888-891-8332 (TDEC). Submit the completed NOI form (keep a copy for your records) to the appropriate EFO for the county(ies) where the construction activity is located, addressed to **Attention: Storm Water NOI Processing**.
